

## SUBSONIC PARK

having initiated and influenced a variety of electronic genres and projects with their renowned label **Elektrolux**, **Alex Azary** and **Gabriel Le Mar** now reinvented themselves and return with even more groove and club sounds as their new outfit **Subsonic Park**, expressed by launching a new label id, **Elux Records**. Still presenting audio and visuals, the focus now is clearly on the floor and on more functional grooves and sounds, with their dj gigs and live shows, Subsonic Park are melting the most advanced tracks between dub- tech, tech- house and deep techno.

### **Subsonic Park`s new album ECHOES FROM INSIDE and INNER CITY CODES on Elux Records**

Subsonic Park`s first and still more experimental album "Inner City Codes", which was released in summer 2008, gave a preview on Subsonic Park`s vision of a new style, combining basic channel`s dub tech sounds and atmospheres with detroitish repetitive sequences.

With their new album "Echoes From Inside", which includes remixes by Brendon Moeller, Aku Aku and Quantum Stardub, Subsonic Park combine this energetic vibe with more functional, rocking beats and grooves.
